Rivals Famous Matterhorn
For Scenic Grandeur

WASHINGTON, June 29.—At least 20,000 square miles of heretofore unseen and unexplored Antarctic land has been viewed by Commander Richard E. Byrd, and has been called Marie Byrd Land and claimed for the United States.

This is the high spot of a long radio message which has been sent to the Secretary of the Navy by Commander Byrd from the far-off Antarctic regions, where he has been engaged in aerial explorations for the past months.

"For the first time aviation has discovered a new land, surveyed it and landed upon it for scientific investigation," declared the famed explorer in his "geographical and geological report of newly discovered area." This was made public last night by direction of the Secretary of the Navy Adams.

Great mountain ranges, plunged in deep snow, seem to predominate in "Little America, Antarctica," from whence Commander Byrd has sent his report. One of these has been christened the Rockefeller range and even south of that is another range as yet unnamed.

And here Commander Byrd describes massive peaks with one great mountain evidently more than 5,000 feet in height which he declared strongly resembles the famed Matterhorn in scenic grandeur.

CRASH OF "THE ANSWER"

Above is pictured the actual crash of "The Answer," the plane in which Viola Gentry and Jack Ashcroft were flying in an attempted refueling endurance flight from Roosevelt Field. The pair attempted a forced landing when they found their gas had given out and a dense fog prevented their seeing a tree on the Hicks estate near Roosevelt Field where their plane crashed. Ashcroft was killed outright and Miss Gentry was unconscious when Henry Hicks and his son dragged them from the cabin of the plane.

SPANISH FLIERS FOUND AT SEA

MADRID, June 29.—After being missing for more than a week the Spanish trans-Atlantic aviators, Major Ramon Franco and three companions, have been picked up at sea by the British airplane carrier Eagle and today were being brought to Gibraltar.

An airplane from the Eagle spotted them floating in their plane, a huge Dornier-Wahl seacraft, near the Azores. They were picked up all alive and well. Besides Major Franco there were Major Gonzales Gallarza, Captain Ruiz de Alda and the mechanic, Sergeant Pedro Madariaga.

INTERNATIONALLY KNOWN SCOTCH MISSIONARY
WILL ADDRESS THE CONGREGATION AT THE UNION
SERVICE IN PRESBYTERIAN CHURCH TOMORROW

Dr. Robert Laws, Honored by British King for Conspicuous Service in Africa, to Appear Here—Pastors Have Topics In Keeping with Independence Day

"MAN SENT FROM GOD"

By REV. R. L. ZEPF
Pastor, First Baptist Church

"Sacred history discloses the fact that whenever in the history of the Hebrew people, a crisis arose, God chose not an institution but a man to represent him in carrying on his work. Likewise in our own country's brief history. Each great crisis in the process of our development heretofore has revealed that God has not changed his tactics. Washington and Lincoln bore the mark of God-called men.

"A year ago all the world was waiting breathlessly, in a crucial hour, for a man. He came—clearly marked as the 'man sent from God.' It behooves the American Christian to help Hoover. Little can be expected from pseudo-Americans. There are those who claim to be both Christian and American, but unless they observe the law and weave into the fabric of their citizenship the Godly ideals of the 'man sent,' they are hybrids."

Dr. Robert Laws, internationally known Scotch missionary, will speak at the union service in the Bristol Presbyterian Church, tomorrow evening at 7.45 o'clock.

Dr. Laws has received many academic degrees from different universities. He was honored by the British king for his conspicuous service to the nation in Africa. He followed Livingstone into Africa, and is said to be a man everyone should see and hear. At present this eminent speaker is in America as a special guest of the Northfield Bible Conference.

The service tomorrow evening was originally scheduled to be held in the Lutheran Church, but a change has been made.

Bristol Presbyterian Church

Usual Sunday School classes will be held in the Presbyterian Church tomorrow at 10 a. m. In the absence of the pastor, Rev. Henry M. Hartmann, the Rev. William H. Sellheim, of Philadelphia, will preach.

The annual picnic of the Sunday School will be held at Maple Beach on Saturday afternoon, July 13th. There will be plenty of refreshments, a fine lot of races and contests. This picnic is held through the courtesy of Rohm & Haas Company, and the Presbyterian Sunday School is grateful of their generosity.

Harriman M. E. Church

Realizing that Harriman M. E. Church is blessed with a large group of children in the Sunday School and neighborhood, the need for some definite religious training is sensed by pastor and people. To meet this need they are planning to conduct a Church Vacation School, for four Wednesday mornings, beginning July 10th. The sessions will be from 9.15 a. m. to 12 noon.

The curriculum will include story periods, music periods, Bible memory work, recreation and handicraft. Several of the women of the church have volunteered to teach. It is trusted that the parents shall avail themselves of this opportunity to send their children to the school. The children are asked to register for the school Sunday afternoon, July 7th, at 2 o'clock.

Last Sunday evening found the Harriman M. E. service well attended. Young people presented a pageant, "The Challenge of the Cross." It was so well rendered and proved so inspirational that many requests have been made that it be repeated in the fall.

This Sunday evening begins the summer schedule. Twilight service from seven until eight. The pastor's message shall be in keeping with the Sunday before Independence Day.

Services for Sunday: Sunday School, 10 a. m.; morning worship, 11, in addition to above. Rev. Gilbert A. Duck, is pastor.

COMMISSION BUYS
TWO MORE BRIDGES
SPANNING RIVER

Final Settlement is Made For \$90,000 for Two Structures

WAS SETTLED IN COURT

One Bridge at Frenchtown, N. J., and One at Milford, N. J.

DOYLESTOWN, June 29.—Marking another forward step in the progress of transportation, the State of Pennsylvania, and New Jersey, through the Inter-State Bridge Commission, yesterday purchased for \$80,000, two bridges across the upper-Delaware River, one from the Alexandria-Delaware Bridge Co. between Frenchtown, N. J., and Uhlertown, Pa., and the other from the Milford Bridge Company between Milford, N. J., and Upper Black Eddy, Pa.

Members of the Commission and others interested in the transfers met in the Court House here yesterday for final settlement. For the State of New Jersey, Thomas Backes, Deputy Attorney General, handed Charles A. Hanners, president of the Alexandria-Delaware Bridge Company a check for \$22,500 and a check of like amount to W. Egbert Thomas, president of the Milford Bridge Company. For the State of Pennsylvania, W. H. Addams, of the Attorney General's office, handed checks of like amounts to the same men.

The legal proceedings were handled by Harry J. Abel, attorney. Others present at the settlement included C. W. Weyand, New Jersey search attorney; Oscar O. Bean, Pennsylvania search attorney; F. H. Decker, secretary of the Alexandria-Delaware Bridge Company; Samuel O. Eddy, Edward W. Bloom, directors of the Alexandria-Delaware Bridge Company; John Nice, president of the Milford Bridge Company; Louis Focht, superintendent and engineer of the Inter-State Bridge Commission; Fred R. Parker, president of the New Jersey Commission; Edward J. Pierson, executive secretary of the engineering department; William H. Wilson, divisional engineer; Gordon Cooper, secretary of the Inter-State Bridge Commission; and Charles Kline, of Allentown, member of the Commission.

The Frenchtown-Uhlertown bridge was ordered by contract in 1841. The contract fell through and it was not until 1842 that the erection of the bridge was started. On December 30, 1843, the bridge was opened and tolls were collected for the first time. It was chartered July 29, 1843. The first toll collector was paid \$2.00 a week, the officers of the company believing it to be a fair wage at that time. He worked for five weeks and an advertisement was inserted in a newspaper asking for applicants. Twelve men applied and it was finally agreed by the lowest bidder to pay a wage of \$36.00 a year.

The Milford bridge was erected in 1841, and was opened July 7. Thomas Pursell was offered \$800 for the site for placing abutments and he refused this amount. Condemnation proceedings were started and the State Supreme Court finally agreed to pay \$450 and this was accepted.

Since that time the two wooden structures have been the means of transportation across the Delaware in that vicinity. The bridges are about three and one-half miles apart. Both have been damaged by high water at various periods since erection.

Frenchtown residents attending the settlement yesterday expressed the opinion the freeing of the bridges of toll will mean an increase in the prosperity of both Milford and Frenchtown. Many farmers purposely evaded both sections as much as possible so they would not have to pay toll.

An old sign at the approach of the Alexandria-Delaware bridge at Frenchtown that has been a familiar sight for many years, will now pass out of existence. It read as follows, under the toll ruling: "Pedestrian, one cent; pedestrian, monthly rate, 25 cents in advance; pedestrian with wheelbarrow, four cents; bicycle, 2 cents; single horse and wagon, 15 cents; two horses and wagon, 25 cents; three horses and wagon, 29 cents; four horses and wagon, 25 cents; automobile, one seat, 15 cents; automobile, two seats, 20 cents; automobile, three seats, 25 cents; auto truck, under two tons, 29 cents; auto truck, 2 to 3 tons, 25 cents; auto truck, 3 to 4 tons, 50 cents; motorcycle, 10 cents; cattle, per head, 5 cents; cow with one calf, 5 cents; horse and rider, 7 cents; man leading calf, 4 cents."

Epworth League Will
Give Supper Tonight

A very appetizing supper will be served by the members of the Senior Epworth League on the lawn of the Methodist Episcopal Church this evening from 5.30 to 9 o'clock.

Candy, cakes, ice cream and fancy work will be on sale. A "fish pond" will be provided for the children.

If the weather is inclement the supper will be given in the banquet hall.

ANDALUSIA STUDENTS
ARE BUSILY ENGAGED

College Men Seek Employment During the Summer Months

OTHER PERSONAL NEWS

ANDALUSIA, June 29.—College men do all kinds of work, regardless. The ultimate end is to be considered financially, and as long as a few hundred dollars are made, blisters, sore backs, and sunburn are entirely forgotten. Tuition at any college means two to three hundred dollars, and Earl Wilkins, class of 1930 at Penn State College, believes in summer work, regardless of what or where, and consequently he is now working for Mr. J. Rankins, helping to build the addition to the Bensalem High School. This fad has spread to high school boys for W. Kemmerle and C. Ashton are eagerly helping here and there. All in all, Andalusia certainly does have the ambitious boys.

Mr. and Mrs. Edward Nelson and younger daughter, Evelyn, are spending three weeks at their cottage at Seaside Park, N. J. Their older daughter, Mildred, is residing with her aunt, Mrs. Walter Nelson, of Edgewood avenue, until the return of her parents.

MUCH LAWN INJURY
COULD BE PREVENTED

Entomologist Says Japanese Beetles Have Ruined Many Lawns and Golf Courses

TELLS OF TREATMENT

Much of the injury now showing up in lawns and golf courses that has been caused by the Japanese beetle could have been prevented, states Loren B. Smith, Senior Entomologist, Japanese Beetle Laboratory, Moorestown, had they been treated last fall with arsenate of lead.

Thousands of lawns in the vicinity of Camden and Philadelphia have almost been ruined by the beetle eating away the roots of the turf, resulting in the grasses dying because of a severed root system. The Japanese beetle grub feeding in the soil attacks the roots of the plants and eats them off faster than they can be reproduced, and naturally the lawn becomes brown and dead. There is only one remedy for this situation and that is to apply arsenate of lead to the lawns and reseed the bare spots.

It has been found that lawns treated with the arsenate of lead are rendered immune to Japanese beetle injury if the treatment is applied at the proper time. Lawns treated in the Riverton section five years ago are still immune to the attacks of the beetle, states Mr. Smith in describing the method followed by the entomologists.

While the injury to the lawns is showing up at this time, there is every reason to believe that the damage was done last fall, when the beetle grubs were preparing for the winter hibernation. The eggs laid on the grasses last August, hatched out in a few weeks, and these tiny beetles began to feed on the roots of the grasses almost immediately. At that time, the injury was not apparent as the turf had in all probability stopped growing and the natural turning of the grasses did not attract any attention. This spring, the grass roots were unable to respond, even though the soil had been treated with fertilizers and liberal applications of water. It is not until the dry weather of late May and early June begins to make itself felt that the beetle injury becomes apparent.

The last few weeks have seen large and irregular patches of apparently thrifty turf suddenly turn brown and lifeless. This is the result of the injury caused by the beetle. On examination it is found that this dead grass can be easily raked up and taken away.

In reseedings these bare spots, Mr. Smith recommends that the property

AGENTS OF NEW DEP'T
TO COLLECT ALL TAX

Will Be on Duty Where Any Funds Are Paid To State

WILL STOP ALL LEAKS

HARRISBURG, June 29.—Agents of the Department of Revenue, after July 1, will be on duty at every point in the Commonwealth where funds payable to it are handled. This method, framers of the fiscal code, believe, will increase considerably the annual collections due the State.

Audits made early in the present administration demonstrated the extent to which the Commonwealth lost funds through careless accounting and lack of cooperation by some officials. The code was drafted to stop all such leaks.

The agents designated, whether whole or part time employees, will be bonded in such amounts as the executive board may decide. In both cases they will be directly responsible to the Secretary of Revenue.

Varied Collections

Collections which will be made by such agents include: 1—All amounts payable out of the estates of inmates for their care and maintenance in State owned institutions for mental patients, mental defectives or epileptics. In cases where the estates of such patients are insufficient to pay such charges, collections will be made from those responsible for their care or from the political subdivisions in which they formerly resided. The same rules will apply to State owned hospitals.

2—Money owing from counties and the Federal government for their share of the cost and maintenance of prisoners in State correctional and penal institutions.

3—All amounts payable by or for pupils for instruction and maintenance in State owned educational institutions, including State normal schools and teacher colleges.

4—All sums payable by political subdivisions as their share of the cost of improving and rebuilding the highways of the Commonwealth.

5—Sums due from magistrates, aldermen, justices of the peace, burgesses and mayors on fines and penalties which they impose and which are payable to the State treasury or to any department, board or commission of the State government.

In cases in which existing laws provide that any money collectible shall

Attractive Wedding Takes Place in M. E. Church At Hulmeville

MANY VIEW CEREMONY

HULMEVILLE, June 29.—In the company of a large number of friends and relatives gathered in the Nashaminy M. E. Church, here, yesterday afternoon, Miss Caroline M. Scull, of Midway, became the bride of Joseph Raymond Vandegrift, son of Mr. and Mrs. George W. Vandegrift, of Cornwells Heights.

The Rev. William Vernon Middleton, pastor of the church, performed the ceremony at four o'clock, and the bride was given in marriage by her father.

Miss Clara L. Hlick presided at the organ; and previous to the ceremony Miss Adelaide E. Reetz sang "O, Promise Me."

Attendants of the bride were Miss Loraine Winder, of Middletown Township, and Miss Marie Watson, of Bristol.

The best man was George W. Vandegrift, Jr., brother of the groom; while the usher was Frank Minster, of Cornwells Heights.

The former Miss Scull was gowned in white satin, the dress being sleeveless, and fashioned with an uneven hemline, long in the back. Rose point lace was used as trimming. The bride's veil was formed of tulle, trimmed with rose point lace, while the head-piece was set off with pearls and rhinestones. White satin slippers and white stockings completed her costume. The shower bouquet was formed of various kinds of flowers.

Miss Winder, one of the bridesmaids, wore a dress of light green georgette crepe, and green picture hat of horsehair. Miss Watson's dress was of yellow, as was also her picture hat. The gowns of the two were fashioned similarly, each being a sleeveless model. Their footgear consisted of nude stockings and black kid slippers.

Miss Winder and Miss Watson each carried a bouquet of pink rosebuds.

A reception was tendered to a large number of guests in the church parlors immediately after the ceremony. Mr. and Mrs. Vandegrift left after the ceremony for Niagara Falls, where they plan to spend several days. Mrs. Vandegrift's traveling costume was composed of a dress of pink figured chiffon, tan coat, leghorn hat, tan stockings and black slippers. Upon their return they will reside at the home of the bride's parents for a short

EMPLOYMENT INCREASING

Another encouraging report has just been issued by the department of labor at Washington on the employment situation. The nation hopes the department has in this acquired a habit it never will be forced to break.

Summing up the report in two words, unemployment diminishes. Here and there, wherever the department could find information, evidences of improved employment conditions were collected. The present and past present no cause for dissatisfaction; the future fosters no anxiety.

The iron, steel and automobile industries continue to attract more workers. For the first time the airplane industry becomes a real competitor in the skilled labor market. Under the beneficent influence of the new shipping law, the shipyards are turning out more tonnage and taking on more workers.

Hundreds of thousands of men who were out of work last winter have found seasonal employment in road and building construction, which will bring them a pay envelope each week until late fall. Other thousands can depend upon agriculture for their bread and butter from now until the harvest is over.

The nation is, indeed, making hay while the sun shines.

SOPHISTICATION'S TRIUMPH

For the space of a decade the American people have been exposed to the full force of a campaign remorselessly devoted to eradicating from territory of the United States all survivals of the preceding benighted epoch.

It has been, in a word, a battle for self-expression. For 10 years a bombardment of withering satire rained down upon the heads of the herd-minded, standardized, intimidated, propagandized, service-clubbed, and in other ways never-daring-to-call-their-souls-their-own inhabitants of Main Street.

For 10 years it was ceaselessly impressed upon the nation that the age of authority was gone, that standards had no validity, that the supreme duty of man was experimentation with everything, and the highest good was what was good in one's own eyes.

And as the result of these 10 years' intensive training in self-expression hundreds of thousands read what their club or publisher picks out for them. Where, little children, it will be asked, does the self-expression come in? Obviously, my dears, in the opportunity afforded the reader to express himself by choosing among—

The boys played errorless ball but were a little weak in hitting the old apple, but this will soon disappear for the boys are practicing every night that there are no games scheduled. The line-up of the team will probably remain the same as in the first game, which is as follows:

W. Tomlinson, catcher; E. Wilkins, second base; J. Diamanti, first base; W. Kemmerle, short stop; R. Cook, third base; W. Shibe, left field; W. Wilkins, center field; H. Wilkins, right field; G. Hessert, pitcher.

LIVE where you work

Many people employed in Bristol are commuting to and from their work each day. This means an unnecessary expense and a waste of time. They must leave home earlier and return later than if they lived in the town where they are employed. They have less time for pleasure and less time to spend with their families than if they resided here.

Why commute?

Bristol as a place of residence offers every opportunity to be found in a large city. There are paved streets, sanitary sewers, good schools and churches of every denomination; periodic collection of ashes and garbage, police protection and ample space for outdoor recreation.

Housing is adequate

Housing facilities are adequate to meet the needs of all. There are dwellings here which will meet the needs of almost every family. Big six room houses with all modern conveniences including front porches and rear yards. They rent as low as \$25 per month, and are comparable in type to those in the larger cities renting for nearly twice the amount.

You're a part of the community

If you live in Bristol you are a part of the community. You are not lost in the crowds of a great city where often times your next door neighbor doesn't know you. Live in Bristol and participate in its affairs and you will find life much more worth the living.

Houses - Stores - Apartments

Modern houses, small stores and a few apartments are available at attractive rentals. If you are interested, communicate with—

BRISTOL A. A. TO PLAY
TOMORROW AT 6 P. M.

Tomorrow the Bristol A. A. will line up against the strong Holmesburg Hawks team, of Philadelphia, on Sullivan's field at 6 p. m., in the first Sunday twilight game.

De Risi will hurl for Bristol. The colored boys have one-armed Turner, the only one-armed ball player playing baseball today. Turner lost his arm in the World War fighting for Uncle Sam. Before the war he formerly played with the Cuban Giants. The Bristol team has a winning streak—eight straight games—playing in the Twilight League as the Federals and Bristol A. A.

A league will be formed shortly of all the clubs in Bucks County, Croydon, Cornwells, Emille, Tullytown, Morrisville and Bristol, and any other clubs wishing to join.

Much Lawn Injury
Could Be Prevented

(Continued from Page One)
owner apply 5 pounds of arsenate of lead to each 100 square feet of lawn before the new seed is sown. The presence of the arsenate of lead in the ground will poison the beetle grubs before they have had an opportunity to injure the roots of the grasses. Lawns so treated will contain sufficient poison to kill all of the grubs that may alight on these spots for many years. Observation at Riverton shows that lawns treated in 1922 are still in perfect condition.

The entomologists at the laboratory are recommending that the arsenate of lead be applied at this time and the seed sown along in August. This will give the lead the chance to become thoroughly mixed with the soil before the seed is sown.

In commenting on the extent of the injury this past year, Mr. Smith states that much of the injury to the sods in the public parks has been due to the presence of the beetle. One example of severe injury has been in Fairmount Park, Philadelphia, and on many of the golf courses adjacent to the city. This could have been prevented had the proper precautions been taken last year to treat the soil.

In speaking of the arsenate of lead application, Mr. Smith states that this poison will be harmless to all kinds of seeds and if raked into the soil it will not harm bird or animal life. The Japanese beetle is poisoned as he eats the grass roots. In eating, the beetle takes into his system much dirt and it is the tiny particles of the arsenate of lead mixed with the dirt that results in his early death before much injury becomes apparent.

"The REDEEMING SIN"

By VIRGINIA MORRIS

BASED ON THE STORY BY L.V. JEFFERSON

SYNOPSIS: Ignorant that Jettur, the Apache who desires her, has been responsible for her brother's death, Fleurette blames Dr. de Bois. As revenge she determines to make the young physician fall in love with her. But in the process of capturing his heart, her own is ensnared. Jettur, meanwhile, breaks into the doctor's house.

CHAPTER VII

FLEURETTE has been unable to carry on her game with Raoul de Bois any longer. That afternoon she and the doctor are walking in the woods. Her sweet-heart notices the depression of her mood and puts his arms about her. "Raoul," she asks him suddenly, "do you know that my first smiles were just bait for you?" He hesitates, "And now you are going to throw me over?" he suggests.

"No, dear—I have learned to care. I love you . . ." She leans against him, wistful, yearning, desirable. Raoul gathers her to him, covering her face with kisses, "And I—I am mad about you. I want you . . . all of you!" he tells her. "I think I should die if you didn't want me," replies the girl as she nestles close in his arms.

IN the evening when Raoul returns from the hospital, he allows himself the luxury of relaxing in an armchair and dreaming that some day he will have Fleurette. He is aroused from his reveries by a sound that seems to come from the vicinity of the French windows. The portieres, he observes, are moving slightly. He jumps up, pulls the heavy curtains aside, and finds crouching behind them—Jettur!

THE Apache's knife is poised menacingly. "I've come to tell you Fleurette is my woman!" "Your woman? You mean—?" "Yes, I mean just that!" The Apache disappears as noiselessly as he came. Physically, Raoul is unharmed but his mind is poisoned. Has Fleurette belonged to this man?
